

Aviation Weather Theory

We'll investigate the big picture of weather, understand the development of hazardous aviation weather, assess atmospheric stability, and study thunderstorm cycles and avoidance techniques. A fun, open forum discussion of all those "why is that?" and the "should I go?" weather questions!

Directions: A part of Moontown's Annual Grass Field Fly-In, this seminar will be in one of the hangars on the Moontown Airport. Fly in or drive. From US Hwy 72, east of Huntsville, turn south on Moontown road. Airport is on the right.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
